CLT NOTICE

Safe Exam Browser Installation

To All Students,

Final exams this semester will be conducted using the **Safe Exam Browser (SEB)**. It is a requirement that all students **MUST** have SEB installed on your computers before sitting for their exams.

As part of the preparation for the exams, SEB will also be used in upcoming quizzes, therefore students are advised to download and install SEB on their computers as early as possible.

The SEB installation file and configuration file have been uploaded to the DWU St Benedict's Campus Notices page. All students have been given access to the page.

Please download, install and try attempt the sample quiz on the page.

Class captain for each lecture groups can see me to arrange for an hour session with your class during your non-contact period.

Thank You...

Mr. Miroi
